

On May 29, 2019 RIENK Management Services was invited to join the Bureau of Foreign Investment of the Netherlands (NFIA) organized seminar on “regulatory and innovative areas of providing new drugs and treatment solutions to the European patient community”.

This informative and interesting seminar was hosted by the Embassy of the Netherlands in China and the Consulate General of the Netherlands in Shanghai and brought together experts from the Netherlands and China from regulatory, scientific and industrial sectors. Amongst the speakers were the chairman of the Netherlands Clinical Research Regulatory Agency, the Netherlands Drug Appraisal Regulatory Agency and members of the Sub-Committee on Supervision of the Netherlands Medical Association.

Are you planning to register Life Science and Healthcare products in Europe?

From a strategic point of view there are several benefits when starting your European registration process in The Netherlands!
